Agenda Title:

Proposed intent to develop a Disaster Recovery Support Program for citizens who have property damage related to an emergency.

Citywide

ISSUE AND BACKGROUND:

After sustaining property damage, many citizens are left unsure about damage restoration processes. Citizens are also susceptible to fraudulent contracting services that seek to exploit their circumstances. To assist their citizens in these situations, numerous Metro Atlanta municipalities have established a list of credible general contracting services that the property owner may be referred to for damage restoration.

RECOMMENDATION / REQUESTED ACTION:

Smyrna Fire Department requests approval for pursuing a Request for Qualifications for licensed and insured contractors that are qualified to perform selective Disaster Recovery Services for individuals and/or businesses that have sustained property damage.
