ISSUE AND BACKGROUND:

This request from Water, Sewer and Utilities was budgeted in FY 2025 CIP to purchase for repair crews to utilize during water sewer repairs. This unit will allow crews to excavate around other utilities to access and repair water sewer infrastructure with out possible disruption of other utilities. Currently crews have to dispatch sewer hydro jet machine from cleaning and inspecting sewer mains to assist with repairs and disrupting preventative maintenance measures of sewer infrastructure. With the purchase of this unit sewer crews will not be disrupted and carry out the good faith efforts of cleaning and inspecting the cities sewer main lines.
