Agenda Title:

Public Hearing - Variance Request - V24-075 - Allow reduction of the streetside setback from 23.3 feet to 15.9 feet - Land Lot 488 - 0.33 acres - 1191 Bank Street - Joan Stuart

Ward 3 Councilmember - Travis Lindley

ISSUE AND BACKGROUND:

The applicant is requesting a variance to reduce the streetside setback from 23.3 feet to 15.9 feet to allow for the construction of an addition on a single-family residence at 1191 Bank Street. The development standards established by the City for the R-15 zoning district requires a minimum streetside setback of 23.3 feet.

RECOMMENDATION / REQUESTED ACTION:

The applicant is requesting to deviate from the development standards established by the City for the R-15 zoning district which requires a minimum streetside setback of 23.3 feet. According to Section 1403 of the Zoning Ordinance, variances must be reviewed under the following standards: (1) Whether there are unique and special or extraordinary circumstances applying to the property; (2) Whether any alleged hardship is self-created by any person having an interest in the property; (3) Whether strict application of the relevant provisions of the code would deprive the applicant of reasonable use of the property; and (4) Whether the variance proposed is the minimum variance needed. After a review of the standards above, Community Development believes that the encroachment will not adversely affect surrounding residents; therefore, staff recommends approval of the requested variance with the following condition:

1. Approval of the requested variance shall be conditioned upon the development of the property in substantial compliance with the site plan and elevations submitted with the variance application.
