**Subject:** Subject: Request for Sunday Work Authorization

**External: This came from outside of Smyrna's email system.**

Team,

I hope this message finds you well.

On behalf of Couch Group, I am writing to formally request permission to conduct construction work on Sundays at Village Green – Restrooms and Playground. This request is being made to ensure that we remain on schedule for the completion of this project.

We understand and respect the City's regulations regarding permissible work hours. However, we are seeking the City's approval to proceed with limited Sunday work moving forward. All work conducted on Sundays will be done in a manner that minimizes disruption to the surrounding community and will adhere to any conditions the City may impose.

We truly appreciate your consideration of this request and your ongoing support for this project. Please inform us if any forms or additional information are needed to process this request.

Sincerely,

**Mariana Rivera**
