Good Afternoon,

The parcel below is a Church and is exempt from City Taxes so I do not have a paid receipt for you. I have copied Caitlin on this so Community Development is aware they have no outstanding taxes.

Thank you,

Hello,

I am with a General Contractor working with The Square Church on a Zoning Amendment application. We are required to provide a copy of paid tax receipts for the property as a part of this application. The address and parcel are below. I do believe because it is a church, they are exempt from property taxes. Can you confirm or let me know what documents are available to submit with this application for the property?
