Commercial or Mixed Use

Are you seeking a Future Land Use Change?*

No

Is Rezoning a Development of Regional Impact?*

No

Project Description:*

Use for a k-4 public charter school. See attached LOI for additional information.

Rezoning Analysis

Number 1: Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property.*

Yes, rezoning approval will permit a suitable use given the use and development of adjacent and nearby properties. The Property is located along Lake Park Drive among existing OI uses

Number 2: Whether the zoning proposal or the use proposed will adversely affect the existing use or usability of adjacent or nearby property.*

No, the proposed rezoning will not adversely affect the existing use or usability of any adjacent or nearby properties.

Number 3: Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned.*

The Applicant submits that due to market demands and the property's unique characteristics, it does not have reasonable economic use as currently zoned.

Number 4: Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities or schools.*

No, the rezoning will not result in an excessive or burdensome use of the infrastructure systems. The property has convenient access to Lake Park Drive and Cobb Parkway. The proposed development would be consistent with the existing OI, residential, and commercial uses.

Number 5: Whether the zoning proposal is in conformity with the policy and intent of the land use plan.*

The proposed rezoning conforms with the policy and intent of the city of Smyrna's 2040 Comprehensive Plan. The subject property is located within the Office Professional Character area. Office Professional Character area is designed for centers of professional employment within the City but can notably include uses for children, research, and development.

Number 6: Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.*

The Applicant submits that the character of the surrounding properties and existing uses provide supporting reasons for approval of the rezoning. In addition, the Applicant submits that the property's location, size, and dimensions, as well as its proximity to or among OI uses provides further support for approval of the rezoning.

Number 7: Whether the development of the property under the zoning proposal will conform to, be a detriment to or enhance the architectural standards, open space requirements and aesthetics of the general neighborhood, considering the current, historical and planned uses in the area.*

The Rezoning will bring a vibrant and successful educational institution to an existing structure that only serves to enhance the property and surrounding community.

Number 8: Under any proposed zoning classification, whether the use proposed may create a nuisance or is incompatible with existing uses in the area.*

No, the proposed use is consistent with existing classifications within the area.
Moreover, a school adjacent to residential uses complements existing infrastructure.

Number 9: Whether due to the size of the proposed use, in either land area or building height, the proposed use would affect the adjoining property, general neighborhood and other uses in the area positively or negatively.*

The rezoning will positively impact surrounding uses but will not dramatically change the physical exterior of the building.
