Agenda Title:

Public Hearing - Variance Request - V23-044 - Allow encroachment into the 50-foot undisturbed buffer and the 75-foot impervious surface area setback - Land Lot 598 - 3383 Kathy Lane - Jim Parks

Ward 6 Mayor Pro Tem / Councilmember - Tim Gould

ISSUE AND BACKGROUND:

The applicant is requesting a variance to allow encroachment into the City's 50-foot undisturbed buffer and the City's 75-foot impervious setback to allow for the rebuild of an existing deck. The City's stream buffers are controlled by Chapter 46, Article VI.

RECOMMENDATION / REQUESTED ACTION:

The applicant is requesting relief from the City's 50-foot undisturbed buffer and the City's 75-foot impervious surface area setback to rebuild an existing deck in the rear yard. According to Section 1403 of the Zoning Ordinance, variances must be reviewed under the following standards: (1) Whether there are unique and special or extraordinary circumstances applying to the property; (2) Whether any alleged hardship is self-created by any person having an interest in the property; (3) Whether strict application of the relevant provisions of the code would deprive the applicant of reasonable use of the property; and (4) Whether the variance proposed is the minimum variance needed. After a review of the standards above, Community Development believes that the encroachment will not adversely affect surrounding residents; therefore, staff recommends approval of the requested variance with the following conditions:

1. Approval of the requested variance is conditioned upon substantial compliance with the site plan submitted with the variance application.
